

## RED TERROR LOOSED BY KAISER IS NOW BEYOND CONTROL

By FREDERICK M. KERBY.  
N. E. A. Staff Correspondent.

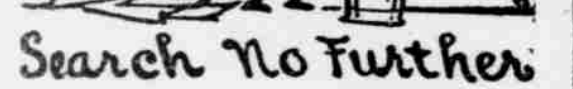

New York, Nov. 9.—If the kaiser financed the Russian revolutions, then the Bolsheviks are now repaying the debt with compound interest.

This is what the political refugees from Russia and the central empires temporarily colonized on the lower east side of New York are saying today.

Having silently, though confidently waited for months for the rising of the people of the Teutonic powers against their military oppressors, all the pent up feelings have now been loosed and they are celebrating the downfall of the Hapsburgs and the Hohenzollerns.

I have spent the day talking with men who have kept in touch with the underground revolutionary governments that have been developing in Vienna and Budapest. I found them in the offices of "Novy Mir," "Elora" and the dingy back rooms where other revolutionary socialist weekly and monthly foreign language papers are produced. I have been in the Hungarian, Austrian and Slavic cafes on Second avenue, where the latest revolution is being openly discussed.

Last spring when reports of the Vienna strikes came over the cables, Zolner Sabados, editor of "Elora," the Hungarian socialist daily newspaper, told me that the revolution was a mat-

## SHELTER IS MEAGRE IN PALESTINE

The transport section of the allied army in Palestine has small chance for shelter when fired on. This picture shows the mules and drivers in the shallow trenches dug in the sand for their limited protection.

ter of a few months at the most; that it would probably start in Budapest, and that the propaganda sent into Austria-Hungary underground by the Bolsheviks would touch the match to the powder. What he said then has come true. Now through the east side I find the feeling is overwhelming that the revolutionary government in the central empires will culminate in Bolshevism.

A steady stream of propaganda has been poured into Germany and Austria from the Bolsheviks in Russia. The German troops facing the Russians were so infected with Bolshevik propaganda that they had to be withdrawn, sent to the western front and replaced by new divisions before the treacherous invasion of the Baltic states and the capture of Riga could be attempted by Germany.

Campaign of Propaganda. Since Brest-Litovsk and the rape of the border Russian states, the Russian Bolsheviks have carried on an unceasing campaign of propaganda, both in these occupied territories and with Austria-Hungary, Germany and the subject Czech and Slav and the great states of Austria. The Lenin-Trotsky regime has always professed to believe that they could bring about a proletarian revolution within the central empires.

This propaganda—if reports that have reached this side can be believed—has infected a tremendous portion of the German and Austrian soldiers and workmen.

With the release of Liebknecht, the independent socialists have gathered strength and the underground swell of Bolshevism has been growing more menacing. Revolutionists here point out that the conditions are ripe. Germany and Austria together have lost 3,000,000 men killed and millions more wounded and prisoners. The people are near starvation. Vienna is without food. To the east Russia is in worse condition. The German and Austrian soldiers will come home beaten and desperate.

Hun Finances Wrecked. Germany's financial system has been wrecked by the Junkers—it is on a paper basis and Austria is worse off. German paper currency is as valuable as Russian paper roubles. The formation of workmen's and soldiers' councils is almost a certainty. Conditions are ripe for revolution of the most extreme type.

My informants say the abdication of the two kaisers will be followed by the setting up of republics corresponding to the Miloukoff regime in Russia. The formation of all-socialist governments may be expected to follow de-

Whether a Liebknecht shall play the part of Lenin; whether perhaps our own east side in New York may produce another Trotsky; whether Bolshevism shall overthrow orderly government in the new republics depends upon what action the allies take.

### GERMANY, TRYING TO PLACE BLAME, IS CLAMORING FOR ARMISTICE AND PEACE

London, Nov. 8.—News comes from the front that the hard pressed German armies have no fresh divisions left to throw into the battle. They have no great reserves of ammunition. The German people are demanding peace at any price to save whatever they may from the wreckage. A few Junker newspapers are still crying for war to the last ditch, but the Socialists seem to have turned the scales decisively in the other direction.

From a British viewpoint the greatest humiliation Germany will suffer will be in having her fleet surrender or pass out of the war without one great fight to the death. But news from Kiel makes it doubtful whether the sailors would go into battle if the officers decided to fight.

Even the best informed men here are unable to arrive at a clear judgment, from the many conflicting reports as to the magnitude of the revolt against war among the German people, or how strong is the demand for the emperor's abdication. One fact is plain there never was such freedom of speech in Germany as today.

Diplomats and soldiers are each trying to place the blame for their country's downfall on the other. Placards have blossomed in Berlin saying the emperor and the crown prince must go.

Correspondents are permitted to telegraph from Berlin that the vacillating character of the emperor is responsible for most of the nation's misfortunes.

### SPIES CAUSE LOSS OF THREE U. S. ARMY HUTS.

(N. E. A. Special.)  
Paris, Nov. 8.—A vessel carrying three portable American army huts, founded in the Lac de Brienz, near Interlaken, Switzerland. The huts, which were manufactured by a Swiss concern, were lost. Their value was \$3000. U-boats are not suspected, but spies are, says a Swiss paper.

### GERMANS SINK SHIP; FIRE ON HELPLESS CREW

Athens, Nov. 8.—A German submarine, after having torpedoed a Greek sailing ship, is said to have fired on the crew when the men tried to escape from the sinking vessel, according to an official telegram received from Crete. The lifeboat has been examined and found to be shattered by projectiles from the submarine's guns. This incident is interesting in view of German denials of such actions.

### RETURNING ARMIES TURN FIRE ON HELPLESS CREW

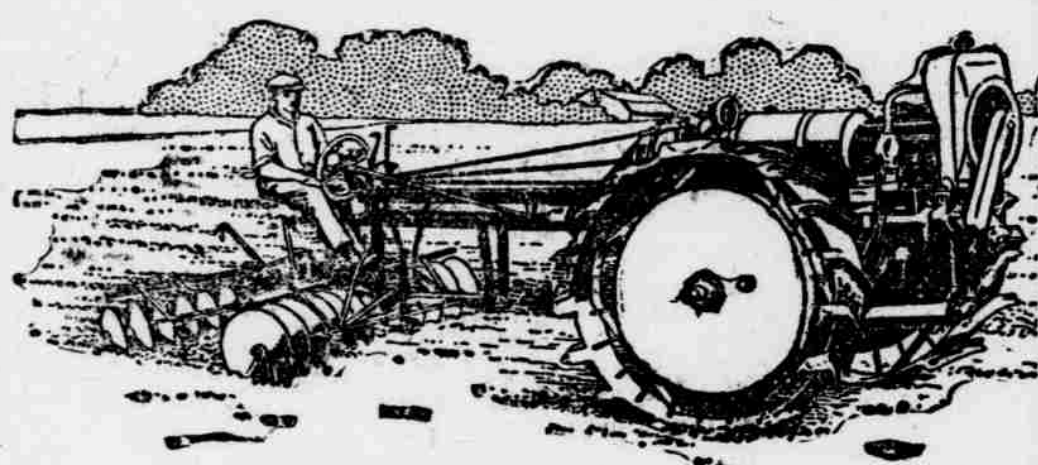

Berne, Nov. 8.—(By The Associated Press)—Complete chaos prevails in Austria according to travelers returning here from that country. All railroads and villages in the Tyrol are flooded with returning armies in full disorder. In the villages demoralized troops, who are breadless, are plundering and requisitioning supplies.

## WILSON GREAT MAN TO FRENCH

(N. E. A. Special.)  
Paris, Nov. 9.—Ask any Frenchman who is the greatest man in the world and he will answer instantly, "M. Clemenceau!" And then, in the next breath, he will qualify it: "It is better to say the two greatest men, M. Clemenceau and President Wilson."

"Wilson and Clemenceau are both impassioned sons of democracy," said M. Grosclaude, the eminent lecturer, in the first of a series of lectures to be given in Paris.

"What, in fact, is President Wilson but the pastor of his people? At the same time, he is a religious and military leader who is placed by the crowd higher than it, in order that he may see farther and warn it of what it must do."

"It is thus that the dispatch of immense American armies to help Europe in peril has necessitated the concentration of the most absolute powers in the hands of President Wilson, just as Clemenceau, in the presence of the rush of the barbarous hordes toward Paris, was thrust to the front by an upheaval of the national will."

"Wilson and Clemenceau are both sons of democracy. It has found in them the men needed in the hour of peril. The salvation of a people resides in the unlimited authority which its instinct of self-preservation delegates to the strongest citizen."
